

Vepa® BRUSH AND COSMETICS COMPANY PRESENTATION

www.vepafirca.com.tr

Since 1956, we have been continuously developing as a company, producing hairbrushes, toothbrushes, and combs, and have become Turkey's leading brush brand.

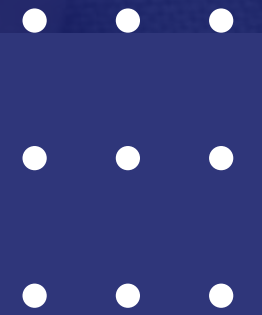

We have managed to maintain our leadership in the industry by offering our innovative products to our customers at affordable prices. Besides, we have closely followed all customer needs without making concessions that might have harmed the mission of our organization.

In order to leave a better world to future generations, we have made it our main goal to produce both organic and innovative goods that respect nature in line with customer expectations. It is our principle to raise awareness on this subject, provided that we create sustainable partnerships with all of our stakeholders in addition to our consumers and employees.

We will continue to be a brand on demand by consumers in the cosmetics industry in which we have been recently involved with new investments.

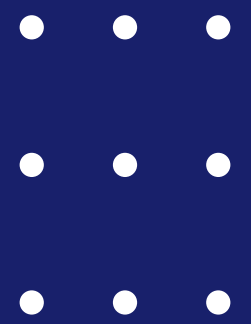

VEPA BRUSH AND COSMETICS COMPANY

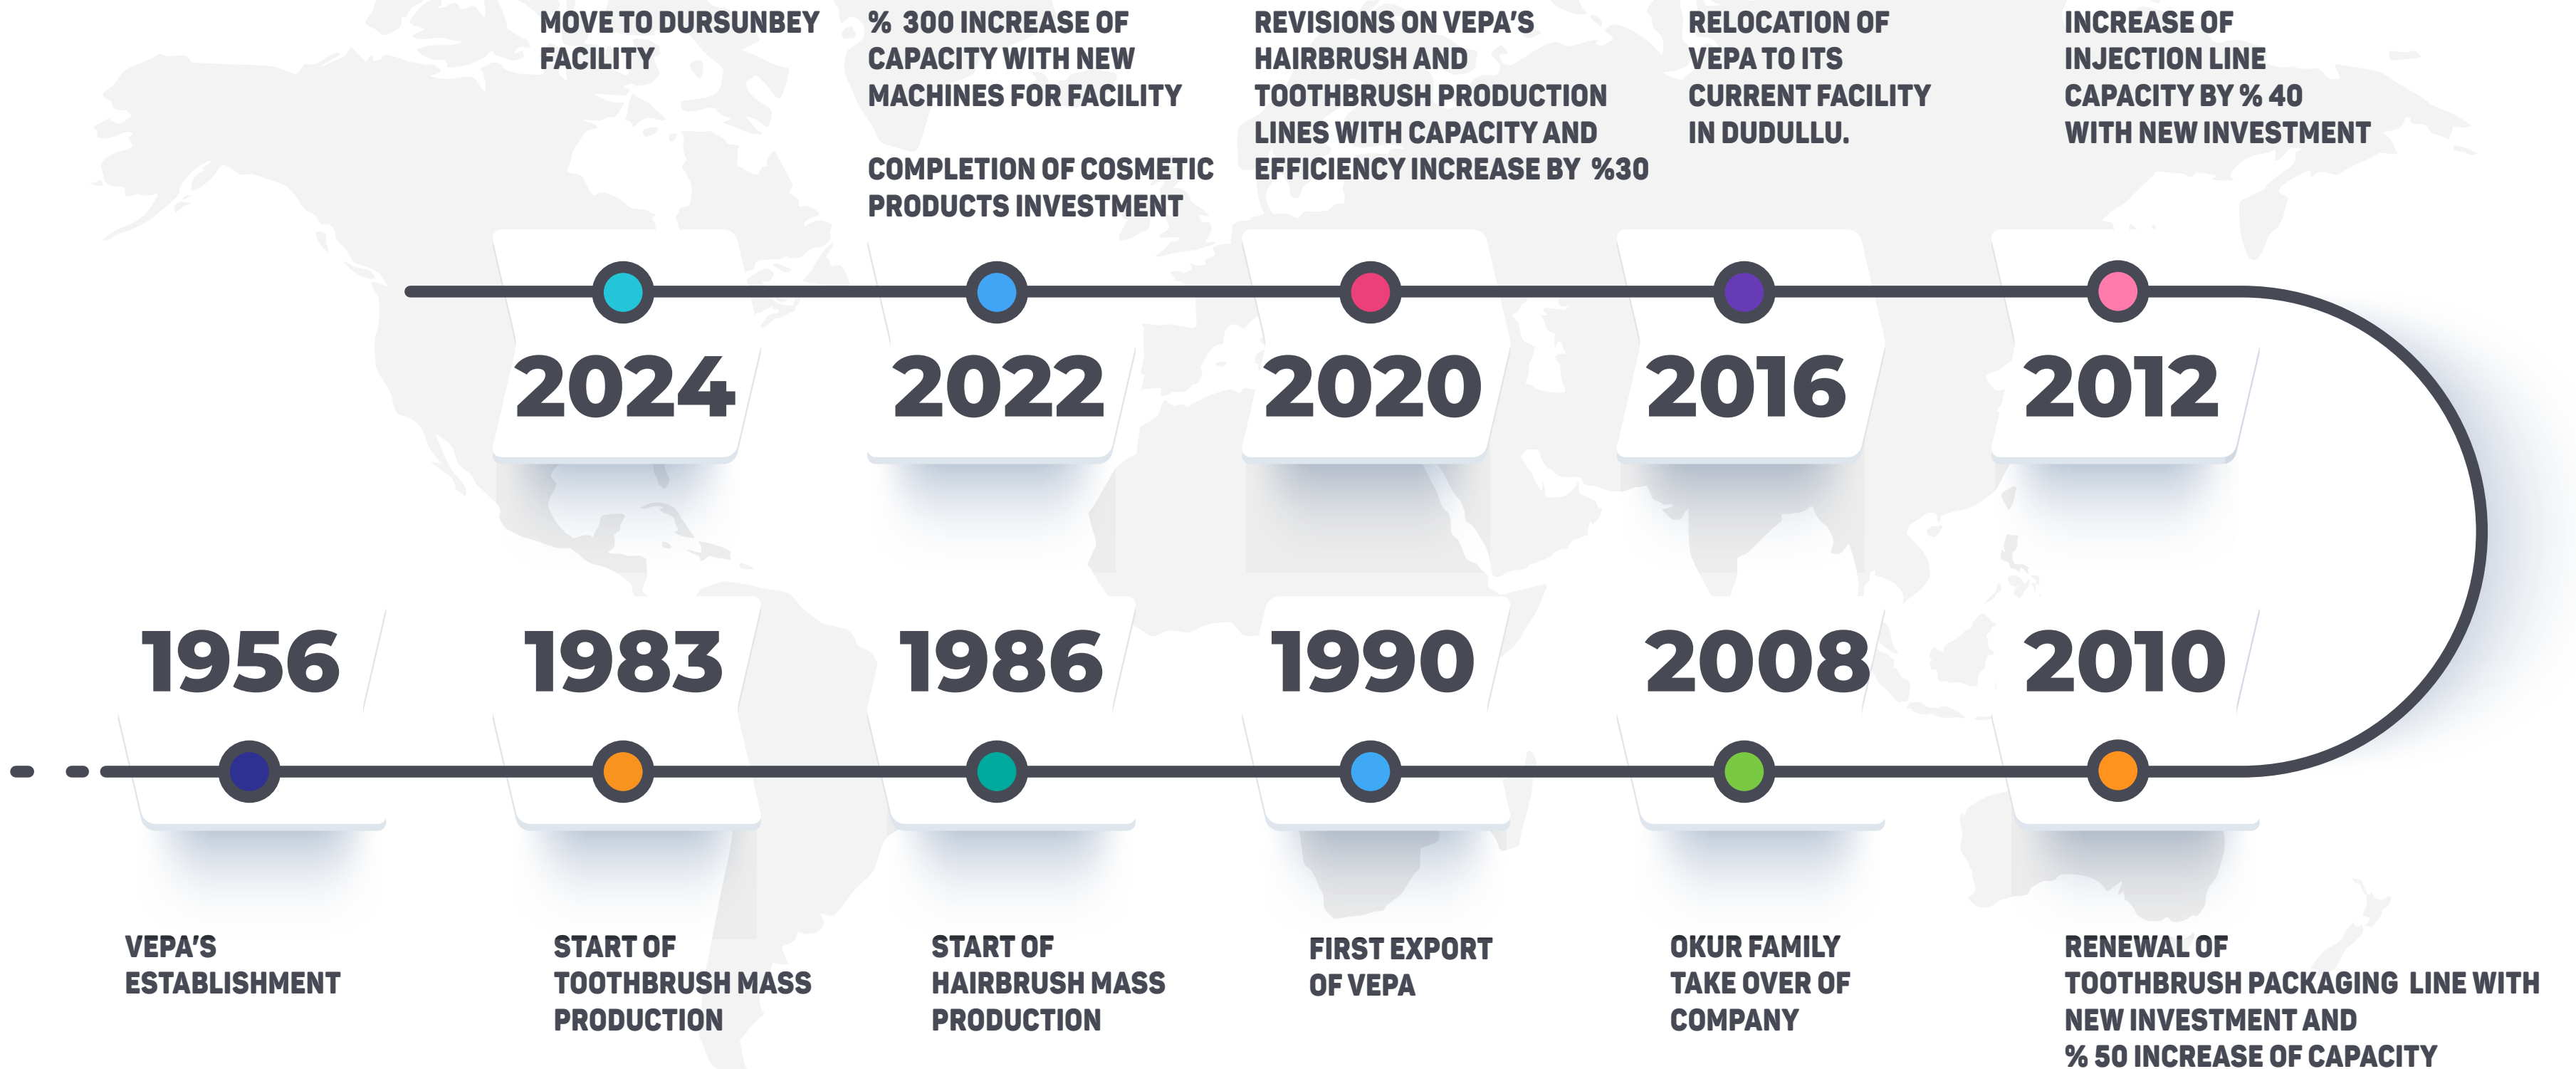

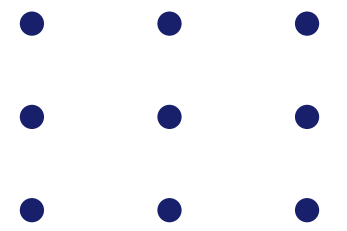

Vepa®

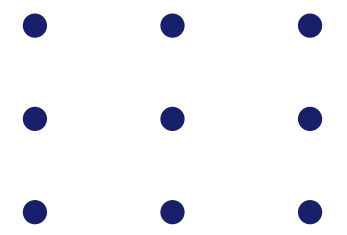

Our products are under the category of personal care products in the cosmetics industry.

We sell our products to markets, perfumeries, pharmacies, wholesale companies, hair salons and PL (Private Label) customer groups.

SUMMARY OF VEPA'S JOURNEY

OUR MISSION

To enhance your personal care needs with sustainable, innovative and healthy products, which are eco-friendly

OUR VISION

To be a pioneer of sustainable innovations with our most popular products of personal care

OUR VALUES

Customer Orientation

We ensure desired customer satisfaction by maintaining the quality of our business processes, responsible and initiative attitude, and reliability.

Leadership

We maintain our leadership stance by making the best of what has been done and making wise investments in opportunities that have not been explored before.

Commitment to Our Values

We establish relationships with all our customers and business partners based on the principle of good

intention and mutual respect . We abide to international ethical and legal rules. In addition, we pay attention to the benefits of the society and long-term results for it as they will affect future generations.

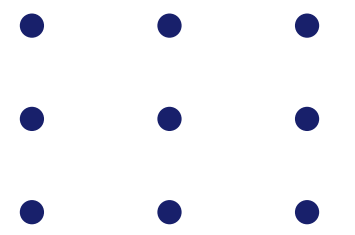

Global Experience

In order to maintain our success and achieve our goals, we work with a well-aware and qualified team.

Sustainable Growth

Since our foundation, our primary priority has been to increase Turkey's international brand value.

As of now, we have more than

Auditor Notes

This statement is proof of the secure and unique redemption of the I-RECs stated above for the named beneficiary to be reported against consumption in the country during the reporting year stated. I-RECs are assigned to a beneficiary at redemption and cannot be further assigned to a third party. No other use of these I-RECs is valid under the I-REC Standard.

Where offset attributes are "inc" the device registrant, who exclusively holds the environmental attribute rights, has undertaken never to release carbon offsets in association with these MWh; "exc" means carbon offsets relating to these MWh may be traded independently at some point in the future.

For labelling scheme information please refer to the scheme's website. Labelling scheme listing may not be exhaustive.

Thermal plant emit carbon as part of the combustion process. Whilst this is not zero carbon, it is generally recognised as carbon neutral where the source is recent biomass.
